## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-6,8-16,18-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The present Request for Continued Examination was filed apparently to have a new prior art reference (US patent no. 5,442,655) considered. Upon a careful review of the reference in comparison with the pending claims, the claimed invention is not anticipated or rendered obvious over the reference because the reference fails to teach determining actual distance between the received signals and to adjust decision boundary or constellation based on the thus determined actually distance. Specifically, the reference teaches determining distance from the I or Q axis to the received signals and shifting the received signals based on the difference between the distances, rather than adjusting the decision boundaries themselves.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin Y. Kim whose telephone number is 571-272-3039. The examiner can normally be reached on 8AM --5PM M-F.
